Education

Graduation: JCC (sector -3, rohini) BCA
(2023-2026)

Schooling: Merry International School

Projects

Secure Real-Time Chat Application (Spring Boot + WebSocket + AES Encryption)

- Developed a real-time chat application using Spring Boot and WebSocket (STOMP protocol) enabling instant bi-directional communication.
- Implemented secure message storage using AES-GCM encryption, ensuring confidentiality and integrity of chat data.
- Designed REST APIs for user authentication, including login, registration, Google OAuth integration, and role-based access (Admin/User).
- Optimized backend performance with efficient message retrieval (latest 100 messages) and structured service-layer architecture.
- Implemented features like username management, user banning/unbanning, and message persistence using database repositories.
- Built message handling system with encryption/decryption at service layer, ensuring secure transmission and database storage.

Dino Run Game (Personal Project):

- Developed a 2D endless runner game with player controls, collision detection, score tracking, and engaging animations.
- Optimized file I/O for high-score saving and implemented event-driven programming, demonstrating problem-solving, algorithms, and prototype testing.
- Showcased creativity through custom animations and dynamic obstacle generation, with a focus on clean code and scalability.

Skills & Interests

.NET Languages & Frameworks: Proficient in C#; Familiarity with ASP.NET framework, SQL Server, and design patterns.
Networking & Operating Systems: TCP/IP, OSI Model, Linux (Kali, Ubuntu), Windows.
Web Development: HTML5/CSS3, JavaScript; MERN Stack (MongoDB, Express.js, React, Node.js).
Data Structures & Algorithms: Proficient in arrays, strings, linked lists, and problem-solving (100+ DSA problems)
Other Technical Skills: Data Structures & Algorithms (arrays, strings, linked lists; 100+ DSA problems solved); Cloud Technologies (AWS, Azure); Networking & OS (TCP/IP, OSI Model, Linux, Windows).
APIs & Methodologies: Knowledge of REST and RPC APIs; Understanding of Agile methodologies; Git for version control.
Achievements: National-level Taekwondo Medalist, State-level Speedball & Yoga Medalist, Smart India Hackathon Participant, Active Competitive Coder.
